Make New Folder   OK   Cancel

Press "Get Attachments" in order start the extraction.
If there is no document available attached to the file
the program will display a message window like the one
above.

PDFAE

📄 C:\MyDocumentWithAttachments.pdf

Success

ℹ Success! attachments found.

OK

C:\Attachments

Get Attachments

Open Folder

C:\Attachments\This is the first attachment.pdf
C:\Attachments\This is the second attachment.pdf

Pressing the "Get Attachments" button will display the next message
when attachments files are found. Also the files will be displayed in the
bottom panel. Double clicking the file names will open the attachment
using the default application for the file type.
